ATLANTIC BEACH CATS INC
501(c)(3) NON-PROFIT CORPORATION

65 The Plaza
PO Box 189
Atlantic Beach, NY 11509

Tip Sheet: KEEPING CATS OUT OF YARD AND GARDEN

SCARE CROW – This motion-activated device releases a short but startling burst of water in the direction of the animal. The sudden water, movement, and noise scare animals away and help teach them to avoid the area. Before long, cats learn not to enter the area, and the sprinkler is rarely triggered. Each unit covers approximately 1200 sq. ft., uses only a small amount of water, and can operate for up to 4 months on one 9 volt battery. Humane, safe, and environmentally friendly. Made by Contech Electrics - **\$65 Per Unit (\$90 normal retail) – Complete Order Form on reverse, and return to Village Office with check, cash, or money order. Additional information at Village Office**

CAT STOP – When cats come within range, this device emits a loud burst of ultrasonic sound. The sound is annoying to cats and teaches them to stay away. It protects approximately 280 square feet and can operate for up to six months on one 9 volt battery. Humane, safe, and environmentally friendly. Made by Contech Electrics - **\$50 Per Unit (\$60 normal retail) – Complete Order Form on reverse, and return to Village Office with check, cash, or money order. Additional information at Village Office**

CAT MAT – These plastic mats are designed to be pressed into ground to discourage digging. They are made of flexible plastic spikes and can be cut into four pieces. Mat spikes are harmless to animals yet effective in discouraging digging. Available through Gardener's Supply Company - gardeners.com or (888) 833-1412

Use **SCENTS and REPELLENTS** liberally around edge of yard, flower beds, tops of fences, and digging areas.

- Fresh orange and lemon peel or citrus-scented sprays
- Oils - lavender, lemon grass, citronella, eucalyptus, peppermint, mustard
- Cayenne pepper, coffee grinds, and pipe tobacco
- Moth balls
- Check with your local pet supply store.

Try these **PLANTS**:

- Rue – Plant this herb or sprinkle in dried form.
- Coleus-Canina – This border plant is available through Gardener's Supply Company - gardeners.com or (888) 833-1412
- By the way, do not mistake the smell of your wet boxwood shrubs for cat urine.

Tossing a can filled with **PEBBLES OR COINS** will make an unpleasant sound and teaches cats that they are not welcome.
